Module list

Summer semester
WM1 Data analysis and modeling in Earth Sciences
WM 2 Geological Field Trip
WM 3 Advanced Methods in Mineralogy and Geochemistry
WM 4: Glacial Systems
WM 5 Study Project Limnogeology and Paleolimnology I
WM 6 Groundwater in the Anthropocene
WM 7 Regional Hydrogeology
WM 8 Aquatic Environmental Geochemistry
WM 9 Applied Remote Sensing
WM 10 Mineral Deposits and Applications
Winter semester
WM 11 Advanced Geoinformation Science
WM 12 Hydrogeochemical Modelling
WM 13 Paleoceanography
WM 14 Introduction to Lake Science
WM 15 Study Project Limnogeology and Paleolimnology II
WM 16 Well Logging
WM 17 Sedimentary Basins
WM 18 Quaternary Environments in the Baltic Sea Region
WM 19 Clay Minerals and the Environment
WM 20 Georesources and Sustainability
WM 21 Geoenergy
WM 22 Natural Resources and Sustainable Regional Development
each semester
WM 23: Mobility Modul
